EDUCATION AND TRAINING

[10/02/2018 – 22/02/2022]

Bachelor of Statistics

The Islamia University of Bahawalpur https://www.iub.edu.pk

City: Bahawalpur | **Country:** Pakistan | **Field(s) of study:** Natural sciences, mathematics and statistics: • *Statistics* | **Final grade:** 3.93/4.00

[27/08/2023 – 29/12/2025]

MS in Applied Statistics

King Fahd University of Petroleum and Minerals, Saudi Arabia https://www.kfupm.edu.sa/

City: Dhahran | **Country:** Saudi Arabia | **Field(s) of study:** Natural sciences, mathematics and statistics | **Final grade:** 3.625/4.00 | **Thesis:** Geospatial and Machine Learning Mortality Modeling of MENA Countries

WORK EXPERIENCE

Bureau of Statistics Punjab

City: Bahawalpur | **Country:** Pakistan

[10/04/2022 – 11/07/2022]

Survey enumerator

King Fahd University of Petroleum & Minerals

City: Dhahran

[27/08/2024 – 31/12/2025]

R Language Lab Instructor

King Fahd University of Petroleum & Minerals

City: Dhahran | **Country:** Saudi Arabia

[10/01/2024 – 06/10/2024]

Python Language Lab Instructor

King Fahd University of Petroleum & Minerals -KFUPM

City: Dhahran | **Country:** Saudi Arabia

[10/10/2023 – 31/12/2024]

Teacher Assistance

PUBLICATIONS

[2025]

Water level forecasting in coastal cities using a hybrid deep learning approach

Authors: Abdur Rahman, M. Hafidz Omar, Tahir Mahmood, Nasir Abbas, Muhammad Riaz, Naeem Ramzan | **Journal Name**: Science of the Total Environment | **Volume, Issue and Pages**: 1003, 2025, 180709, | **Publisher**: Elsiver

[2026]

Modeling and forecasting air pollution for public health protection based on ML and time series models in Gulf Cooperation Council (GCC) countries

Authors: Muhammad Daniyal, Hanan Alyami, Ali Jaber Alqahtani, Muhammad Talha, Abdur Rahman & Abbas Al Mutair | **Journal Name**: BMC Public Health | **Volume, Issue and Pages**: 26, 280 | **P ublisher**: Springer Nature

[2025]

On Designing EWMA Charts to Model Demographic Trends with Generalized Extreme Value Distribution.

Authors: Abdur Rahman, M. Hafidz Omar, Nasir Abbas, Muhammad Riaz | **Journal Name**: IWSM 2025

Optimizing Demographic Surveillance using GEV Control Charts: An Advanced Approach for Monitoring Fertility Trends.

Authors: Abdur Rahman, M. Hafidz Omar, Nasir Abbas, Muhammad Riaz | **Journal Name**: Submitted

A Generalized Extreme Value CUSUM Framework for Detecting Shifts in Infant Mortality Trends: Advancing Public Health Surveillance.

Reference: Abdur Rahman, Nasir Abbas, M. Hafidz Omar, Muhammad Riaz
Journal Name: Under Review

Hybrid Residual Learners Framework for Mortality Forecasting: Integrating Lee-Carter, Renshaw-Haberman and Machine Learning Models in the MENA Region.

Reference: Abdur Rahman,M. Hafidz Omar
Journal Name: Submitted

A Hybrid Deep Learning Architecture for Multi-Dimensional SDG Modelling*

Learning Spatial Structure in Mortality Data: ESF vs Modern Machine Learning*

CONFERENCES AND SEMINARS

[13/07/2025 – 18/07/2025] **39TH INTERNATIONAL WORKSHOP ON STATISTICAL MODELLING** LIMERICK, IRELAND

[2025] **GSR Conference 2025**

[2024] **Math Connect 2024**

VOLUNTEERING

[22/02/2024 – 22/02/2024] **Social Service** Dhahran, Saudi Arabia

[03/11/2025 – 03/11/2025] **Arabian Warrior OCR** Dhahran, Saudi Arabia

HONOURS AND AWARDS

[09/02/2022] **Gold Medal Awarding institution:** The Islamia University of Bahawalpur, Pakistan

CERTIFICATIONS

[Codanics, 30/12/2022] **40 Days of Data Science with Python**

A hands on course using Python for data science and machine learning. Covered Python basics, Git, Markdown, data analysis, and simple ML concepts with real examples, plus soft skills for online professional work.

Mode of learning: Online

[Aiplanat, 13/08/2022] **5 Week Data Science Bootcamp**

An intensive program covering the full data science workflow. You worked with real world data, learned core tools, solved quizzes, and completed a data challenge guided by industry experts.

Mode of learning: Online

Link: https://aiplanet.com/course/certificates/verify/a7cd60a5-ae61-4a25-832b-5876498a656e

[Aiplanet, 07/07/2022] **Introduction to Exploratory Data Analysis**

Learned how to explore datasets using summaries and plots. Focused on finding patterns, trends, missing values, and outliers before modeling.

Mode of learning: Online
